

LeMans

BRINGS THE CONTENTS
IN FRONT OF THE CABINET

Technical Support

Product Information

Optimal functionality for fascinating ease of use

LeMans – The corner cabinet innovation: vastly increases usable storage space with its organically shaped shelf geometry. With an elegant combination of rotating and swivelling, the entire contents of the cabinet are easily accessible and visible.

Why using the corner is always better than leaving a blind corner

In addition, the clever design of the trays is an ideal fit for pots and pans, so that the actual, usable space increases by up to 70 %.

Up to 50kg load capacity and individual height adjustment

LeMans is an extremely robust storage system with a load capacity of up to 25kg per tray. Damped self-closing means whisper-quiet closing even fully loaded. The patented 4-arm articulation system swings the trays out of the cabinet in a smooth and fluid movement. Users select tray heights to suit their needs and cut out wasted space. With optimal access at all times, LeMans makes perfect use of corner space!

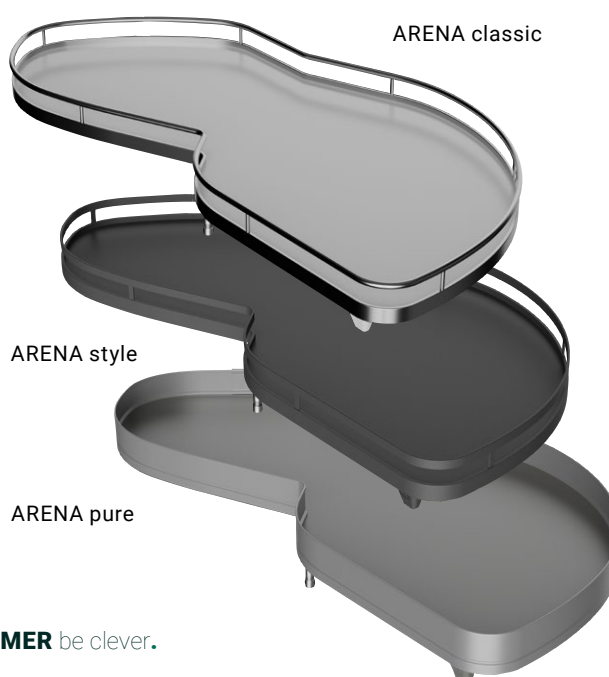

Designvariants at a glance

The LeMans can be swivelled out to the left or right and therefore offers maximum flexibility in kitchen planning. It is available in various shelf shapes and colours, allowing it to be optimally adapted to individual needs and design preferences.

The new LeMans tray in the ARENA pure H anthracite version with high railing ensures consistent lines in base and tall units and provides additional support for storage items. The LeMans thus combines design harmony with even more safety and convenience in everyday kitchen life.

LeMans and its versatility

High or low. Two shelves or four. With minimal effort, the shelves move out of the unit and everything can be seen clearly and is readily accessible. Our LeMans is a multiple winner with its efficiency and benefits!

All product benefits at a glance

- » Door opening angle of just 85° allows trays to swing completely out
- » Max. payload per tray is 25 kg
- » Height-adjustable trays
- » ClickFixx system for fast, errorfree, toolless assembly
- » Damped self-closing (option)
- » 70 % more storage area than a base unit with pull-out drawers next to the blind corner!

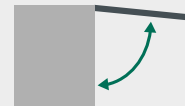

Features

ClickFixx reduces installation time and at the same time ensures a high standard of installation. Adjustment is done in no time with a simple screwdriver.

SoftSTOPPplus for damped closing plus self-closing of the storage cabinet.

Opening angle limiter

The opening angle limiter prevents damage to the fronts of adjacent components.

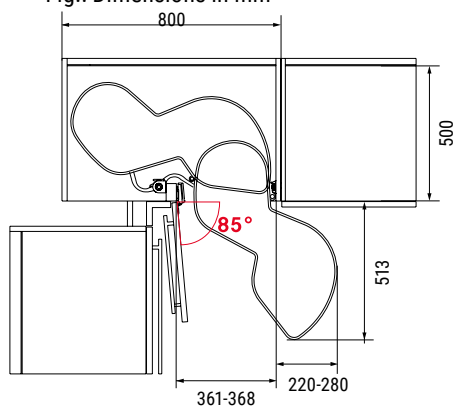

Height adjustment

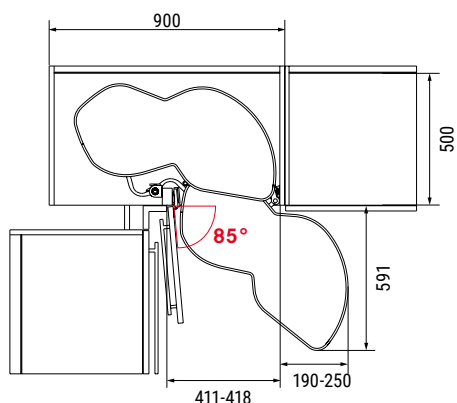

The individual height adjustment creates the optimum space for every storage item.
