# ORGANISATION IS THE KEY

## cookingAGENT

MODULAR AND FLEXIBLE

**EACH USER CHOOSES THE ELEMENTS THEY NEED AND WANT – AND HOW TO ORGANISE THEM.** cookingAGENT has space for everything – spices, oils and sauces, chopping boards, knives, even plates and bowls. With perfectly secure holders for sauces and oils. The sturdy railing and movable dividers hold bottles and jars securely in place.

Cooking utensils are ready to hand. The cookingAGENT is a true full-extension pull-out – it moves all the contents completely out in front of the cabinet. What could be better? And if you change the way you cook, your cookingAGENT adapts instantly to your wishes.

The cookingAGENT was designed by Kesseböhmer especially for users who expect a lot of their kitchens in terms of style and functionality. It complies with German quality and hygiene standards, which are some of the most stringent in the world. All critical components have been tested for food safety and easy care.

All the plastic elements are dishwasher safe. cookingAGENT is the ideal combination of comfort and hygiene. Offering hobby cooks a professional storage solution, it creates optimal conditions for every user.

# A SMALL UNIT WITH BIG BENEFITS

## cookingAGENT

AMAZING CAPACITY

---

 KESSEBÖHMER

---

**cookingAGENT WORKS WONDERS, ESPECIALLY IN SMALL KITCHENS.** As a full-extension pull-out it guarantees all-round access to an amazing amount of stuff.

The full-extension pull-out features smooth gliding action, stability and SoftSTOPplus damping. Storage racks and containers are made of food-safe, easy-care materials and can be easily detached, cleaned or rearranged.

Use your cookingAGENT to store ingredients for your favourite dishes, oils and vinegars, spices, coffee, tea and biscuits.

The runners for the new cookingAGENT are attached to the cabinet side panels. This speeds up production, because screw holes can be drilled ahead of the carcass press.

A variant for mounting on the bottom panel is also available. This option allows a cookingAGENT to be installed in an existing kitchen unit.

A cookingAGENT can be installed with an attached front panel or behind a hinged door. This means maximum flexibility for the kitchen planner.
